

EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These Regulations require the holder of a wheelchair accessible small public service vehicle (SPSV) licence to register his or her contact details with the Commission for Taxi Regulation. The Commission may in turn disclose this information on request to consumers who wish to avail of a wheelchair accessible service.

In addition, the holders of wheelchair accessible SPSV licences are required to keep records relating to bookings.
